

Emil Su

JENIOR SOFTWARE

Profile

After graduated from bachelor, I went to acquire a master's degree directly. It is because I realize my knowledge of bachelor is hard to support my work. For the reason, I haven't any working experience yet. While, as an exchange, I have various coding experience in different projects, such as service, website design & coding, and so on.

If you are interesting in my experience, please don't hesitate and contact me.

Regard

Education

Bachlor, University of Canberra, Canberra

2015 — APRIL 2018

Master, University of Tasmania, Tasmania

MARCH 2018 — AUGUST 2020

Details

15 Alexander St, Sandy Bay,
7005, Australia
0437086952
